

**SANTA CLAUS IS COMING TO BERNARDS TOWNSHIP...
AND HE IS RIDING ON A LOCAL FIRE ENGINE**

As many of you know, the Basking Ridge Fire Company No. 1 and the Liberty Corner Fire Company are both all volunteer organizations responsible for raising the majority of their own funding. In an effort to raise necessary funding, Santa Claus, along with our local firefighters, will be delivering holiday gifts via a fire engine. For a \$50 per family donation, the Basking Ridge Fire Company or the Liberty Corner Fire Company will bring Santa Claus to your home to deliver a holiday gift (which you supply) to your children. This year, Santa will be delivering on Saturday, December 17th.

How does it work? You are asked to deliver a pre-wrapped gift for each child participating in your family along with your \$50 donation to your respective fire company. You can identify your respective fire company by the Annual Fund Drive solicitation you receive in the mail each year.

For those of you protected by the Basking Ridge Fire Company No. 1, please deliver your gifts to their station at 30 Washington Avenue on Monday, December 5th from 7-9pm or Monday, December 12th from 7-9pm. For those of you protected by the Liberty Corner Fire Company, please deliver your gifts to their station at 95 Church Street on Sunday, December 11th from 10 am to noon or Tuesday, December 13th from 7-9pm. Then on Saturday, December 17th, Santa Claus will arrive at your home on a fire engine to deliver your gifts.

For further information, please call the Basking Ridge Fire Company at 908-766-9874 or visit the Liberty Corner Fire Company website at www.libertycornerfire.org.
