

## **A MESSAGE FROM THE BERNARDS TOWNSHIP POLICE DEPARTMENT**

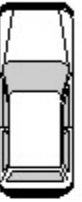

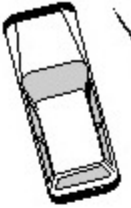

Attached is a diagram showing the designated parking areas for those picking up students from Oak Street School. This diagram also shows how the stacking line should run on Lee Place for the extension of the car loop. There should be no parking on Lee Place and the car loop should not extend down Allen from Lee. These allowances for parking are for drop off and pick up times only, and the standards of parking at least 50' from a stop sign and 25' from an intersection are still applicable during these times as well.
