Dear Parent/Guardian:

Earlier this week I wrote to you to describe our district goals and to ask for your input on a variety of surveys you will be receiving throughout the school year. In my letter I mentioned that the first such survey would be a survey related to district technology. Students and staff will be also responding to technology surveys designed for them.

Please note that we are in an information gathering stage right now. We are taking our time to explore all the issues, visit other schools and seek out best practices. We really need your input to help inform the decision making process. Thank you so much for taking the time to complete the survey. To access the technology survey for parents please click [here](#). Alternatively, proceed to this address:

Please complete the survey by the end of February. Thank you again for your attention and support.

Sincerely,

Nick Markarian
