

Seasonal Allergy Information

Allergy season is upon us!

- The Nurse does **NOT** stock oral allergy medication for students.
- If your child has allergies please give him/her their **medication prior to coming to school.**
- **I do have** OpCon allergy eye drops I can give to your child for their itchy eyes if necessary.
- If your child needs further medication I need to have an MD order before I can administer it. Copies of order forms can be found on my website.

PLEASE NOTE: No child is allowed to bring in their own medication/eye drops and give it to himself/herself.

If you child must stay in from recess due to allergies
I need a note .
